

Flexential Fabric Architecture

Building blocks for success

The rapid pace of technological change in today's IT environments means that businesses need to be able to adapt quickly to new trends and developments to remain competitive. Effective decision-making in today's complex and disrupted business environments must be connected, contextual, and continuous to drive good outcomes.

Future infrastructure is interconnection-led and software-defined

Real-time collaboration

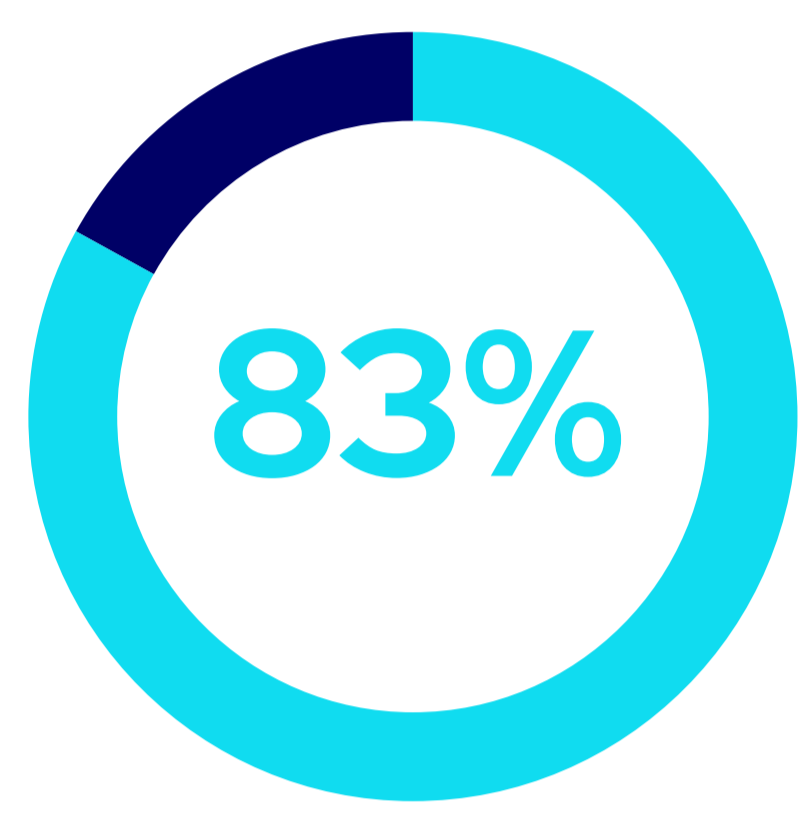

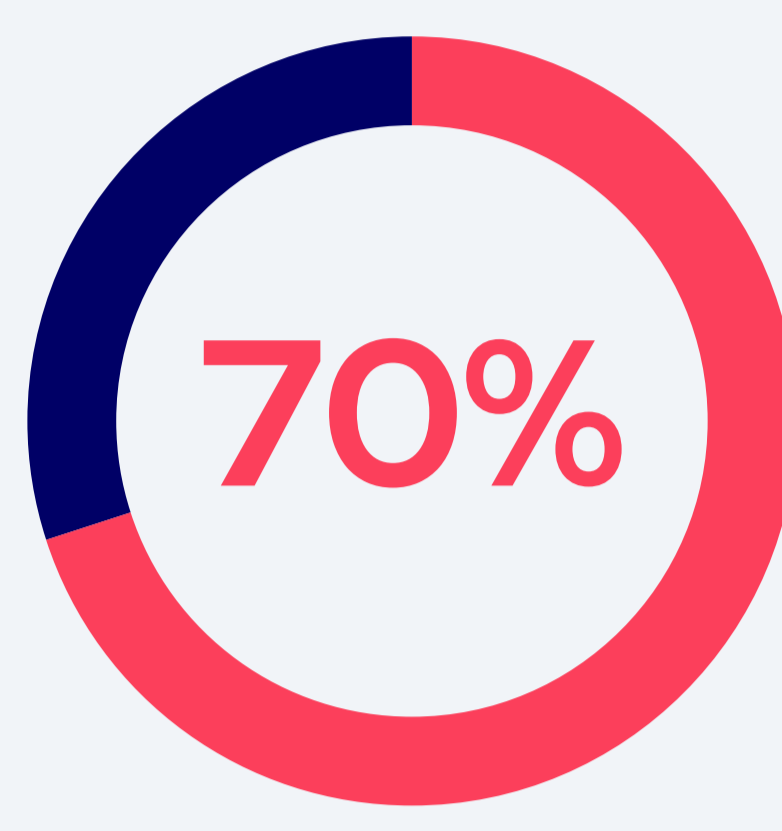

30% of organizations rent colocation space to interconnect with cloud, telcos, service providers or customers.

It's time to change the way your interconnection services are consumed

Flexential Fabric is a complete, flexible, scalable, highly interconnected, and easily manageable solution tailored to support your unique hybrid IT journey. Get direct, secure connectivity to your distributed infrastructure and digital ecosystems through a single physical port.

Effortless connection

Say goodbye to wait times and manual processes with quick and secure virtual connections to any destination in the Flexential ecosystem through the Flexential Xperience Portal (FXP) self-service web interface.

User-friendly interface

Take control with the intuitive web interface. Monitor, manage, and modify services on demand without having to worry about physical infrastructure.

Cost efficiency

Optimize your ecosystem and cut capital costs. Scale your network affordably with no rigid long-term contracts or costly capital investments with a month-to-month pricing model.

Seamless integration

The FlexAnywhere Platform of colocation, cloud, interconnection, data protection, and Professional Services all seamlessly integrated by one unified fabric.

High-speed connectivity

Unlock high bandwidth, consistent throughput, and low-latency connectivity to the internet, data centers, and leading cloud providers—all through a single port, without the need for complex cabling.

Nationwide reach

Industry-leading data center interconnect services to 41 facilities in 19 markets. Real-time virtual circuit provisioning lets you expand beyond local metros and connect to destinations nationwide.

Trusted partnership

More than just a tech provider. With Flexential Fabric, our experts craft future-proof IT programs tailored to your unique needs.

Powering your future

Unlock the full potential of your business with seamless connectivity and unparalleled interconnection services. Embrace a new era of networking with Flexential Fabric.
